

Srividya Maddi

Full Stack Java Developer

Srividyam004@gmail.com | +1 (314) 704 6671 | St Louis, MO, USA

Summary

Full Stack Java Developer with over 3 years of hands-on experience in building secure, scalable enterprise applications and cloud-based platforms. Proficient in Java, Spring Boot, AWS, and a wide array of web technologies. Known for delivering high-performance backend systems, responsive frontends, and seamless API integrations. Recently completed a Master of Science in Computer Science with a strong focus on machine learning, cloud computing, and automation. Passionate about solving complex problems and driving innovation in fast-paced Agile environments.

Technical Skills

Languages: Java (8/11/17), SQL, PL/SQL, Python, Kotlin, Scala, TypeScript

Technologies: JSP, Servlets, JavaBeans, JDBC, Struts, RMI, EJB, Hibernate, Spring, SOA, JMS, SAX/DOM Parsers, AJAX, JAXB, JAXP, LDAP, RESTful/SOAP Web Services, Apache Kafka

Web Technologies: HTML, CSS, JavaScript, XML, Angular 11/15, Bootstrap, React JS, Node JS

Application Servers: Tomcat, WebLogic, IBM WebSphere, HTTP Server, JBoss

Cloud & Containerization: AWS (EC2, ECS, S3, Lambda, IAM), Docker, Kubernetes, Azure, OpenStack

Databases: Oracle, MySQL, DB2, MongoDB, PLSQL

Platforms: Windows, UNIX, LINUX

Methodologies: Agile, Scrum

Build Tools: ANT, Maven, Gradle

Logging & Monitoring: Log4j, SonarQube, Log Insight, SonarLint, Kibana

DevOps & CI/CD: Jenkins, Git, GitLab, SVN, Bitbucket

Testing Tools: JUnit, Mockito, Postman, Jasmine, Karma, Selenium, Cucumber, Jira

Professional Experience

Java Developer, Neobric IT Solutions Pvt Ltd

June 2021 - July 2023 | Hyderabad, India

- Architected and developed microservices with Spring Boot, deployed via Docker containers on AWS ECS.
- Implemented secure and scalable REST and SOAP APIs for enterprise applications.
- Integrated PostgreSQL with Spring Data JPA, reducing data latency and optimizing complex queries.
- Created responsive UIs using Angular and Bootstrap, improving user experience across mobile and desktop.
- Automated deployment using Jenkins CI/CD pipelines and monitored applications via CloudWatch and Kibana.
- Collaborated with cross-functional teams following Agile methodologies and participated in code reviews.
- Used JUnit and Selenium for unit and integration testing, ensuring high code reliability.

Java Intern, Value Labs

October 2020 - March 2021 | Hyderabad, India

- Participated in full software lifecycle from requirements gathering to deployment and maintenance.
- Developed secure Java applications using JSP, Servlets, and Spring Boot on Tomcat/WebLogic servers.
- Built a UNIX search utility with SSH2 using Java Secure Channel and Spring MVC.
- Designed routing framework for Verizon using Apache Camel and Restful web services.

Srividya Maddi

Full Stack Java Developer

Srividyam004@gmail.com | +1 (314) 704 6671 | St Louis, MO, USA

- Created unit tests with JUnit and Mockito, achieving 90% test coverage.
- Integrated applications with GIT, Jenkins, and Maven for automated build and deployment.

Projects

Cloud-Based E-commerce Platform

- Designed and deployed a scalable e-commerce platform using AWS EC2, RDS, and S3.
- Backend services built with Python and Flask, frontend with HTML/CSS/JS and Bootstrap.
- Implemented cloud-native architecture with load balancers and auto-scaling policies.

Predictive Analytics Using Machine Learning

- Created machine learning models using Scikit-learn and TensorFlow to predict customer churn.
- Engineered data pipelines and optimized preprocessing using Pandas and NumPy.
- Visualized model results and business insights using Tableau dashboards.

Ariel Data Challenge - NeurIPS 2024

- Participated in an international machine learning challenge to detect exoplanets using noisy datasets.
- Built ensemble classifiers using TensorFlow, applied advanced preprocessing to clean astronomical data.
- Ranked in top percentile based on model performance and accuracy.

Cloud-Based ETL & Monitoring System

- Developed a cloud-native ETL pipeline with AWS Lambda, S3, and RDS for real-time data ingestion.
- Scheduled and monitored jobs via CloudWatch, achieving 40% improvement in data processing efficiency.
- Integrated with external APIs and handled error tracking via Splunk and SonarQube.

Education

Master of Science in Computer Science

Southeast Missouri State University | May 2025 | GPA: 3.7/4.0

Certifications

- Cybersecurity Awareness Training - Amazon
- Network Analyst Training - ICSP, India
- AWS Cloud Practitioner - (In Progress)
